How to reach the congress venue

The Cadaver Lab will take place at the I.C.L.O. San Francesco of Sales, Teaching & Research Center, of Arezzo (street A. Einstein, 12 a/b).

By car: take the highway Autostrada del Sole "A1", take "Arezzo" exit and follow indications "Arezzo-Bibbiena-San Sepolcro". After about 5 km on the right take the exit for Via Luigi Galvani and go straight along Via Luigi Galvani. After about 500 mt turn left and enter Via Lebole, cross the underpass and turn left into Via Fratelli Lumiere. It is visible the teaches of Hotel AC Arezzo. The congress venue is a pink building that is located back the AC Hotel Arezzo.

Nicola's Foundation was established on November 21 2006 as ONLUS, and the founders are Prof. Giuliano Cerulli, S.E. Monsignor Sergio Pintor and Assisi Project, society that operates in health area.

Institutional purposes of Nicola's Foundation expect to:

- contribute to training, promotion and the development of a Health and Scientific Research focus on people, and therefore, more humane and humanizing;
- develop research projects of high content;
- contribute to scientific development in the biomedical field;
- support the medical and scientific training.

Nicola's Foundation is a not-for-profit and seeks to ethical and cultural established by founders.

The Foundation has decided to start a planning that allows the greatest number of Orthopedic Surgeons to fill and reduce the growing gap, the distance that is increasing between speed of improvement of surgical techniques and the ability to apply them in the majority daily surgical practice; this is, today, a challenge won by a minority elected.

In summary:

- see from time to time involved, as experts/teachers, some of the most important italian Orthopedic Surgeons;
- provide an opportunity to all Orthopedic Surgeons who feel the need to keep abreast of new techniques surgery and/or arthroscopic;
- Each residential course, accredited CME, will provide reports referenced above, but discussion of case studies and teaching exercises followed by the most important experts in orthopedic and arthroscopic surgery italian or international.
